

# Multilingual PowerApps

## Overview:

The project involved developing an application using PowerApps, Power Automate, MS dataverse and MS translator to enable and make a useful application on different language specification. User can interact with this application as per their language preference.

## Client details:

**Name:** Confidential | **Industry:** Real-Estate

## Technologies:

**Office365, PowerApps (Canvas Apps), PowerFX, PowerAutomate (For multilevel approvals, CRUD operations in O365), Microsoft Translator, CDS, Custom Connectors**

## Project Description:

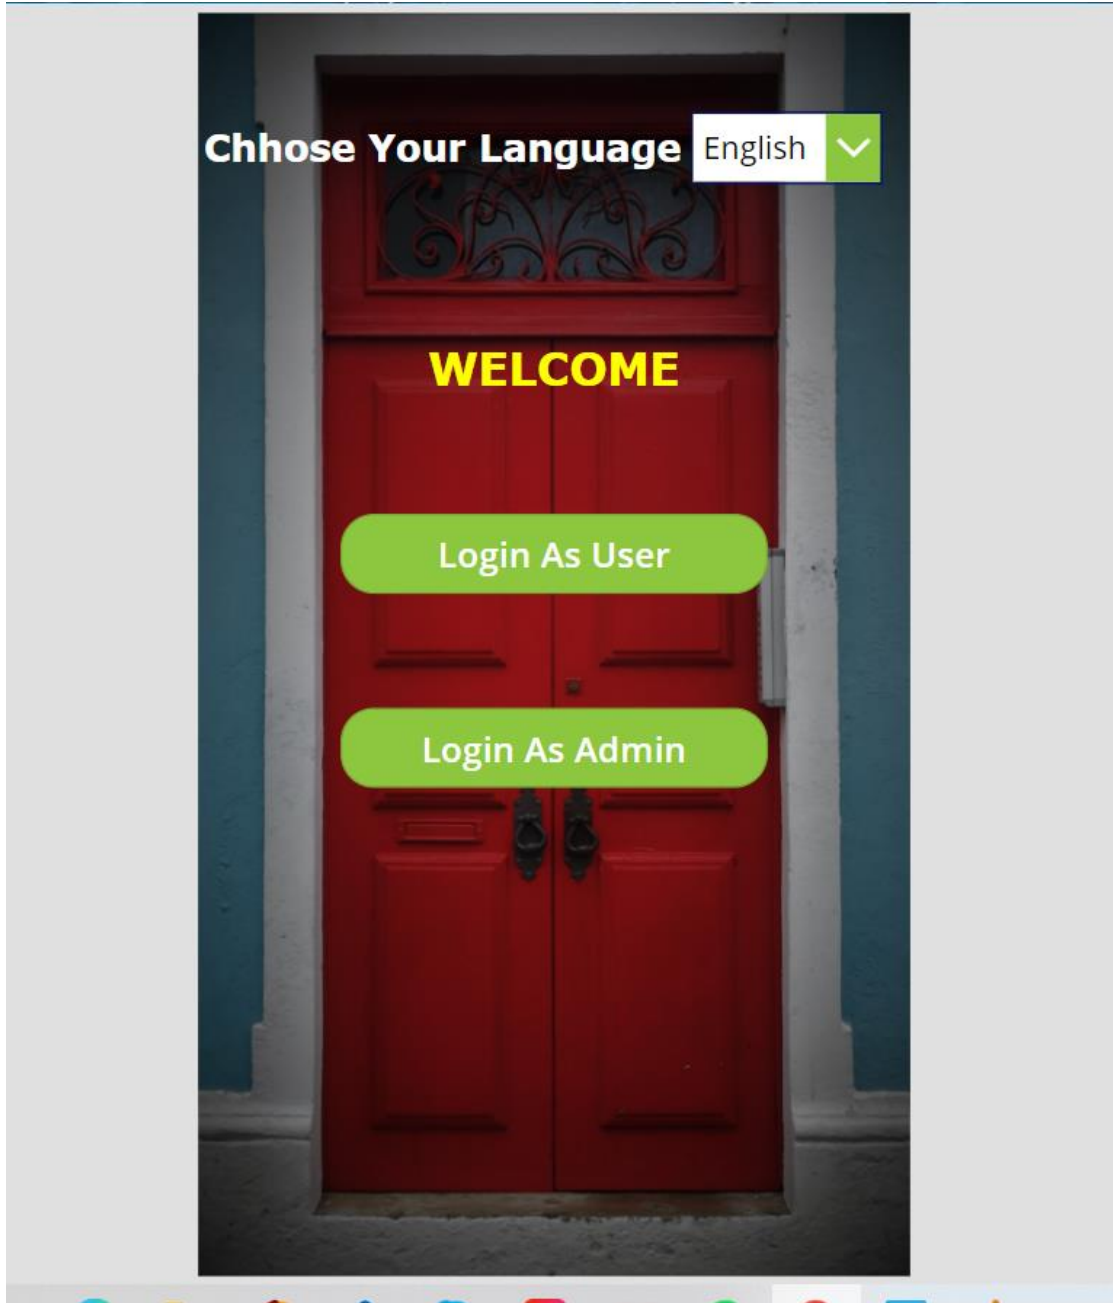

Real estate industry is a huge industry and has different clients from different corners of the world. In order to make this projects user friendly and language friendly, we have developed this application, where user can interact with this application as per their language preference by just one click.

The project was successful and some of the salient features are as follows:

## Home Screen:

This is the welcome and login screen of the application. Here User has two options as per their authentication concern (login as user, login as admin). Here user has choice on which language they want to continue with the application. As per their input language, application will transform into that language, otherwise default language will be English.

**Before choosing language.**

After choosing Spanish language.

### House Specification Screen:

After successfully login into application user will land on this screen. Here user can found in-stock buildings/flats and a brief specification about the buildings. In order to know the details of the house they have to just click on that specific house.

**Before choosing language.**

## HOUSE SPECIFICATION

### **Banglo Building**

#### **Australian Campus**

11155 NE 8th Street 98004

### **Building No 5**

#### **Canada Campus**

11155 NE 8th Street 98004

### **Building No 26**

#### **American Campus**

11155 NE 8th Street 98004

After choosing Spanish language.

## ESPECIFICACIÓN DE LA CASA

### **Edificio bungalow**

#### **Campus australiano**

11155 NE 8th Street 98004

### **Edificio No. 5**

#### **Campus de Canadá**

11155 NE 8th Street 98004

### **Edificio No 26**

#### **Campus Americano**
